

## **Rush Apprenticeship at Harper College**

Rush is very excited to announce in conjunction with Harper College the launch of our brand-new Medical Assistant Apprenticeship program!

This program is the first of its kind in Chicago.

Harper College, a longtime academic partner of Rush, has partnered with RUMG to develop an apprenticeship program to run alongside their Medical Assistant curriculum. The apprenticeship will give students the opportunity to develop their newly learned skills in real time as they progress through their courses, ultimately working to obtain their Medical Assistant certifications.

The program is 5 semesters long and participants will move from simply observing to actively participating in clinic operations as they advance through their classes.

We are confident that RUMG's Medical Assistants and clinic staff will provide an enriching and fruitful learning environment for the apprentices as they work toward certifying.

In August, Rush welcomed 22 Apprentices throughout the Ambulatory clinics. The amount of gratitude and engagement these individuals demonstrate is unique and Rush is proud to have these apprentices, as Rush says "Excellence is just the beginning"!
